### 1. How did you begin your career in adult entertainment?

My sophomore year of college I began messing around on different camming sites. I eventually realized that I could be making money doing what I was already doing for free! I cammed for about six years and then eventually started thinking about getting involved with mainstream professional pornography. Very recently I signed with a company and I am very excited for my first project! I think you will really love what we are going to be putting out!

### 2. You're known as the original library girl. How did you get into the niche of masturbating in libraries?

I was taking a Fluid Mechanics class during the summer at Arizona State University and one day I showed up for class early and decided to hop on cam for a bit. I would normally have 100 people in my room but I instantly had 1,000 people in my room so I knew there was a lot of potential to make money there. I started trying out various libraries around campus until I settled on a library that was not as busy as the rest. Camming from the library was so much fun and I really miss it sometimes!

“  
***I love sex and I love  
people watching me  
have sex!***

**3. You recently did a first live boy/girl show and someone rang the doorbell in the middle. What was that like? And did you ever find out who that was?**

I have always wanted to do a live boy/girl sex show for two main reasons: I love sex and I love people watching me have sex! The thought that thousands of people were watching me have sex drives me crazy! The show was going on for a few hours and right before Johnny was about to cum inside my pussy the doorbell rang! It was absolutely insane. We paused for a second but then Johnny kept going and that made it an even hotter show!

**4. As a cam model with a very active Reddit presence, do you have any advice to other models who are looking to use Reddit to promote themselves?**

Reddit is the fifth most popular site in the United States and it allows pornography. The fact that models don't use it more is kind of mind blowing to me. The site can be a bit more difficult to navigate than some, but the exposure you get is definitely worth the work you have to put in to understand it. I would suggest creating your own subreddit so that you have control over what is posted. Also, find other subreddits that fit your style! There is a subreddit for everything.

**5. What is your favorite thing to do during time off?**

Spend time with my sister, Emma Banks, and my dog Sammy, read books, listen to music, smoke marijuana, and go out to the clubs (though I stay sober).

**6. What changes would you like to see in the adult industry?**

I would like to see some aggregated source of scammers and people to stay away from. I would like to see more performers getting royalties for their scenes. I would like to see the industry adopt more cryptocurrency payment options.

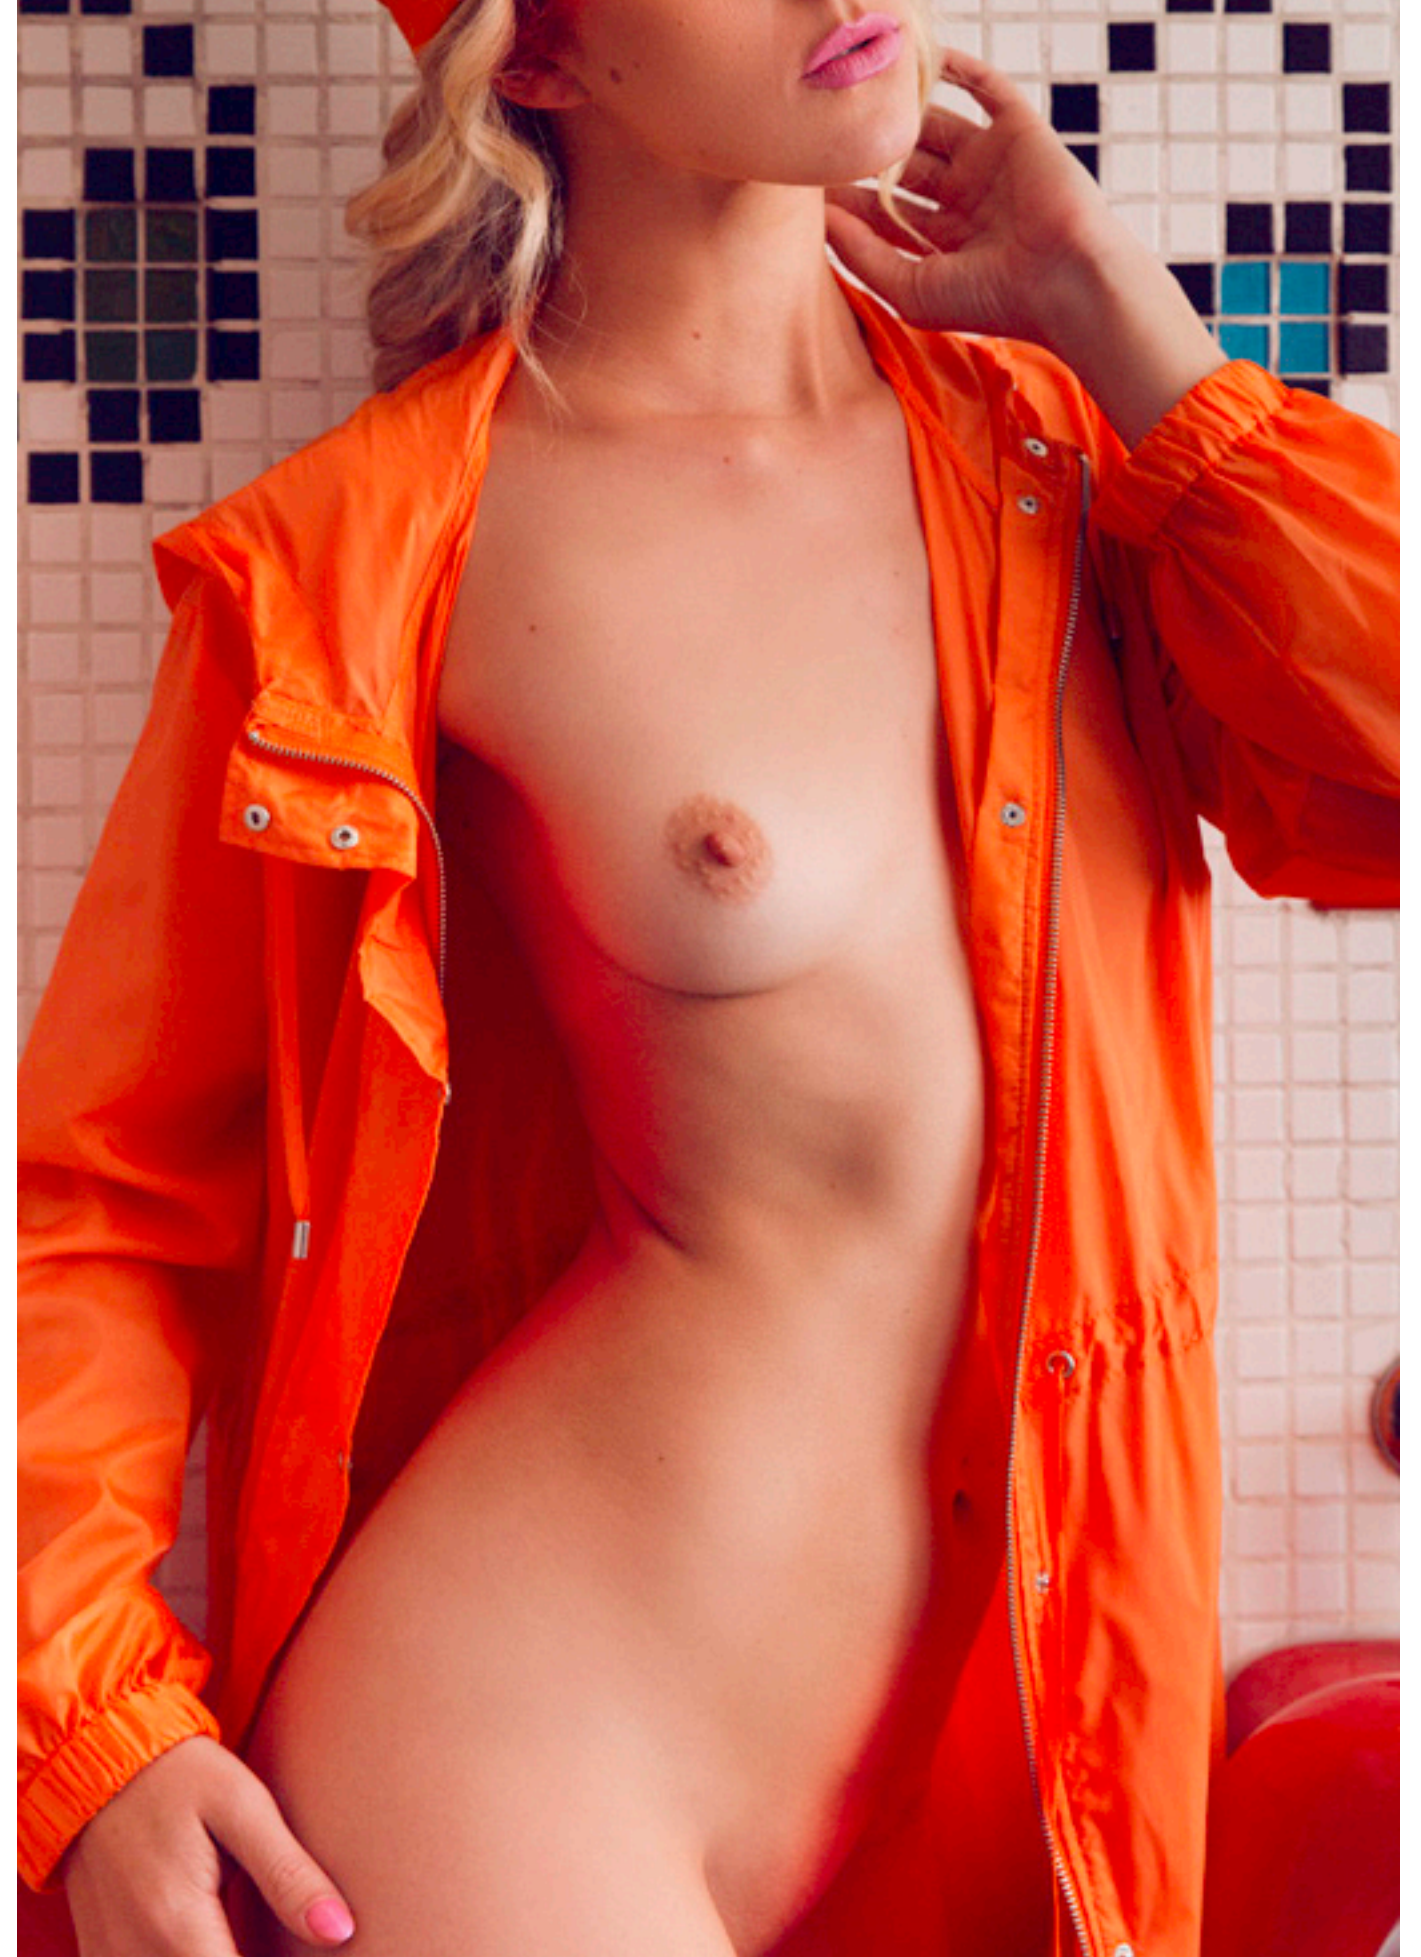

**7. What are your current objectives for your career?**

I plan on continuing to cam throughout my career but the next few years I will start to do professional pornography. This is something I have been looking forward to for years and I am really excited to put out projects that I am proud of! I will also be going back to school in the near future once I figure out what I would like to focus on.

**8. Looking back, what were the most important elements to your success?**

Staying true to myself and being kind. I have gotten so much further by being nice than I ever would have by being mean. Your ego can take control of your thinking very easily in this industry, so it is important to surround yourself with people that help keep you humble instead of making your head bigger. My life goal is to try and help end the stigma surrounding this industry and, if I stick to that, everything else will fall into place.

### 1. Who is your role model and why?

I'm not sure that I have one specific role model. I grew up admiring people around me that were kind and honest. I like to think that I am not separate from anyone and no one is separate from me; we are all one. I think letting that infinite kindness flow through us is the most fulfilling way to live.

### 2. What project or accomplishment do you consider to be the most significant in your career?

Being named March 2017 Penthouse Pet was a huge accomplishment for me! It's crazy to think MY face was on the cover of a well known magazine in stores around the world! My mom was actually in an airport and texted me freaking out saying how cool it was to see her daughter on the cover in one of the little magazine shops.

### 3. What's the most interesting trend in the adult industry for 2018?

I love that more people are feeling comfortable exploring different aspects of their sexuality, especially men. It's so cool to hear them talk about how they have started experimenting with their submissive sides and how it has been almost like therapy for them. There is something very magical about being in a properly managed sub space.

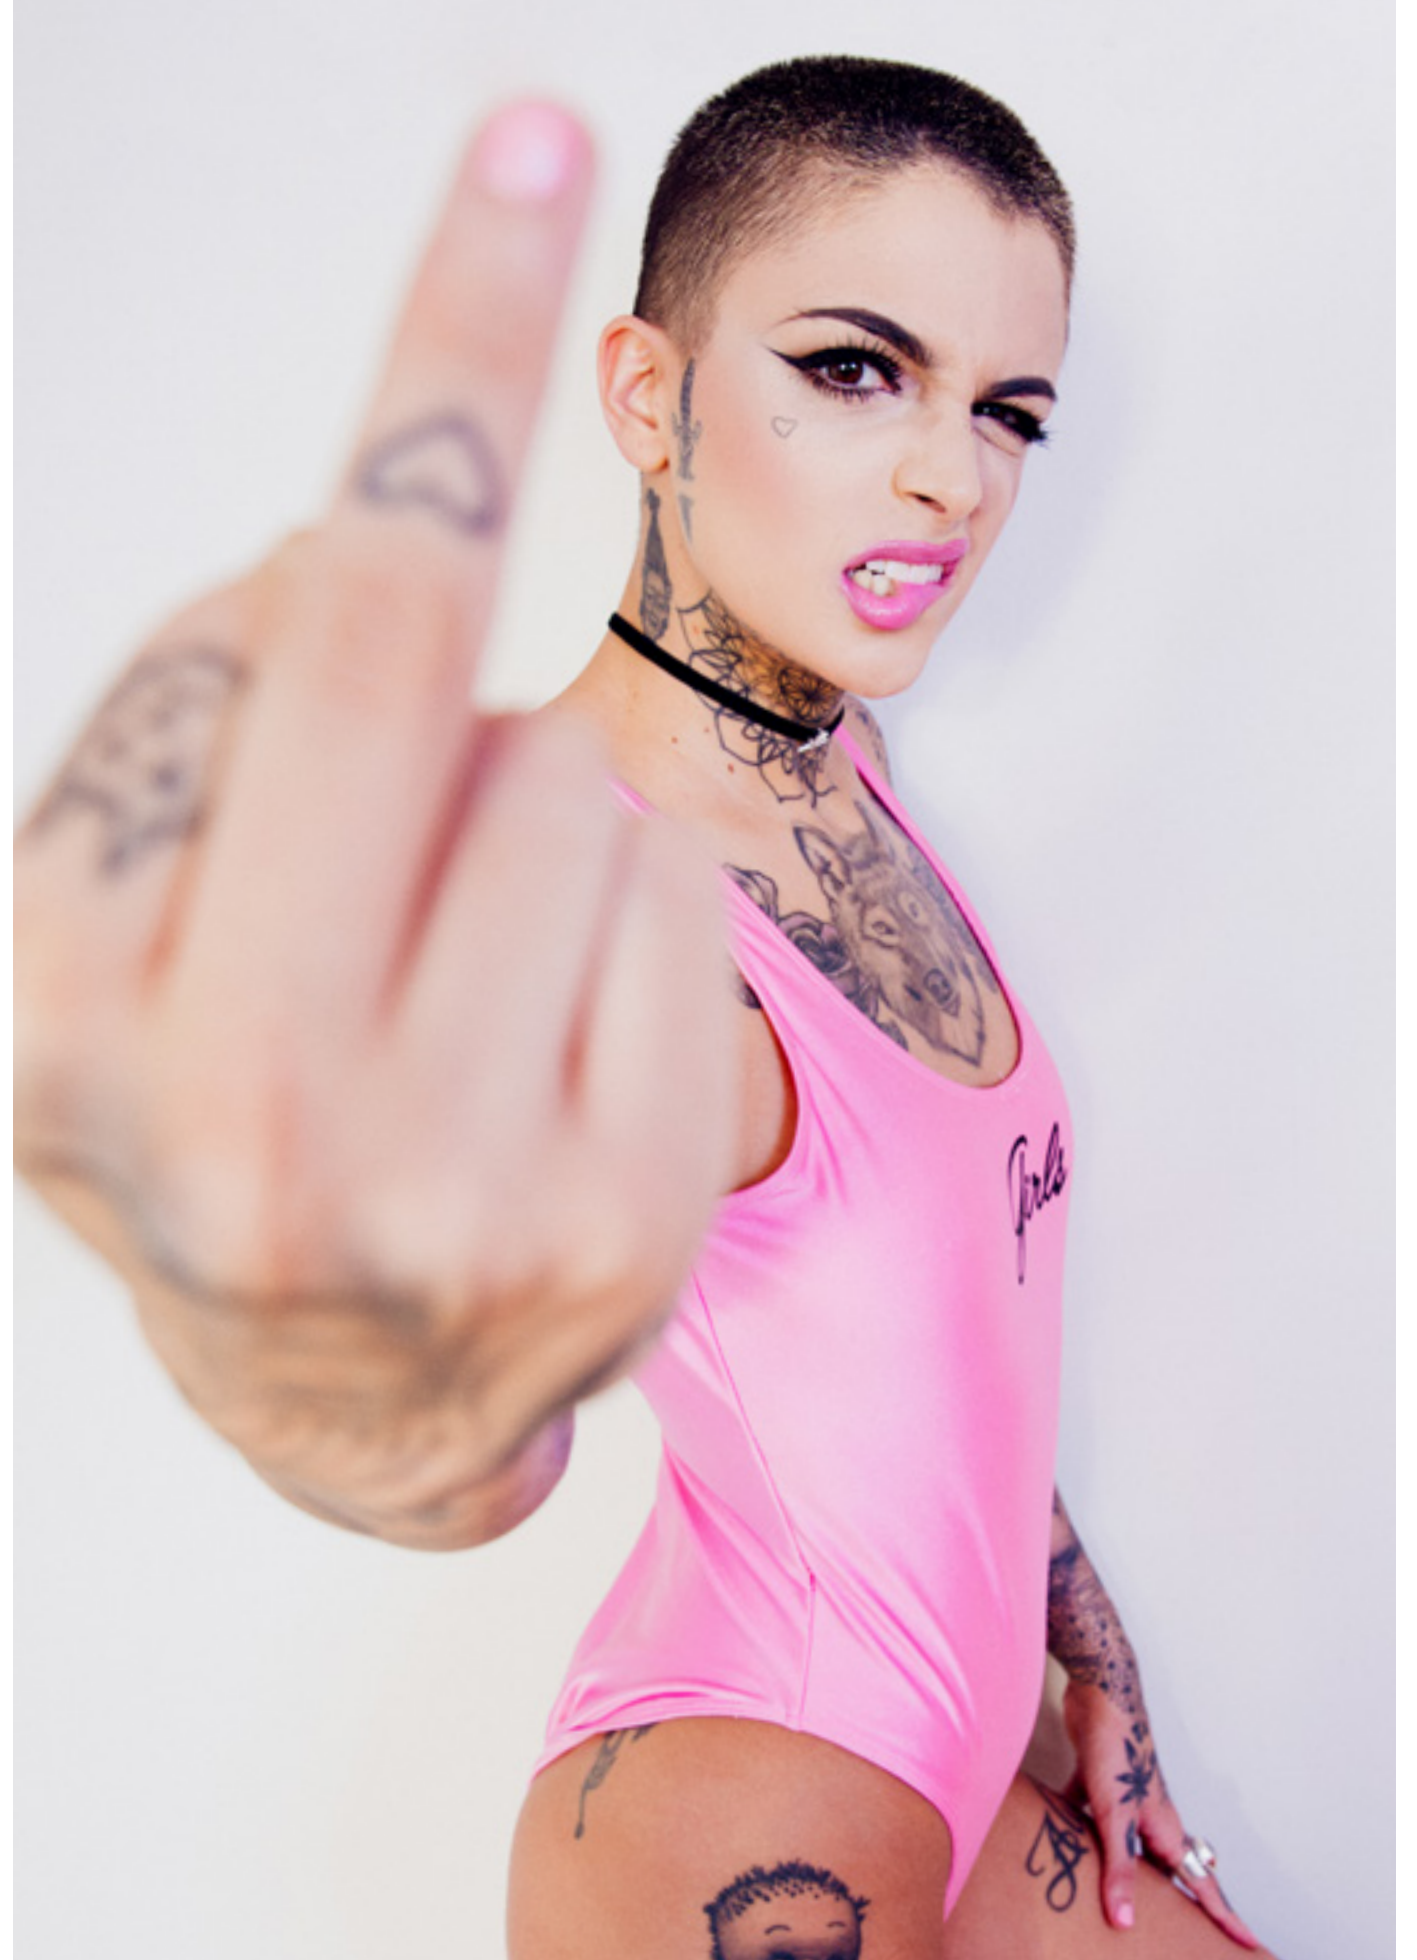

### 4. What's your best memory with Leigh?

Ellismania in Las Vegas with her was so fun! Leigh, myself, and several other pretty ladies were ring girls for the event. We were in the hotel room jacuzzi every chance we got! Being the little nuggets we are, we like to stay warm and cozy all the time.

### 1. What do you love most about yourself?

I love my childlike sense of humor, along with my down-to-earth personality.

### 2. Has the fear of failure ever stopped you from doing something? What steps do you take to overcome that fear?

I am a firm believer you have to make a fool out of yourself at least once to be successful (unless you're just naturally great at something). I feel like people are constantly afraid of what other people think, and I'm just not like that. Of course, it never feels good to NOT succeed at something, but I'd rather try than not know.

### 3. If you had to change your name, what would your new name be?

I don't think I would change my name if I could. Leigh is my actual middle name. Maybe something that's easier for people to pronounce? A lot of people don't know that my name is pronounced "Lee".

### 4. What is your best memory with Riley?

It's really hard to pinpoint my best memory with Riley. Every time we see each other I realize how alike we actually are. It's scary. Haha.

**1. What was the biggest culture shock you experienced coming to North America from Japan?**

Everything is bigger than in Japan! The food, how people think, the streets, people's voices, all the sounds and the actors's dicks!

**2. What instantly turns you on?**

Lily Cade.

**3. What do you love about making vids?**

I love the creative process. It's a great way to express myself and my sexuality.

**4. Why do you think you have been so successful?**

I am still in the process of becoming successful. But, I always keep in mind to continue to work hard and improve for myself and my fans. In Japan, I was only a softcore performer. Japanese Adult Video (JAV) girls who had good softcore sales did not change to hardcore performer.

But, I tried it, and was given an exclusive contract with SOD (a major porn company in Japan).

Another accomplishment that has helped my career and has been a proud moment was when I came to the USA as the first Japanese performer and also became the first and only Japanese Penthouse Pet.

“  
***Sex on camera  
is very beautiful.***

**5. Where do you see yourself in five years? What about twenty?**

I hope still be shooting scenes in five years. I just love performing and creating scenes. I find sex on camera is very beautiful and consider it art and tastefully done. Maybe you can see me in things that I have created. I think it will be difficult to be a porn star after twenty years. But, I do not want to stop being creative in life. So, I may still create something in which you can see me.

**6. How would you describe your style?**

I am Marica Hase - a small Japanese girl who loves sex but is very, very weird!

**7. What advice would you give to new performers?**

Do not become a porn star unless you have a strong mind. It is not as simple as most believe. It is more than just sex alone. You will be on the internet forever, even if you have done only one scene. If you think at any point this can bother your life after you quit porn then do not choose this path.

**Macy Kennedy**

**1. After being nominated for ‘Best Cam Couple’ at the previous AVN Award Show, how has camming changed for you?**

Camming has changed in so many ways. Receiving an AVN nomination was my dream and my top goal since I entered the business six years ago. I put in so much hard work and time trying to build myself up to get there. When we got one, I cried. Since then, we have gotten so many opportunities and it just reassures me I’m good at what I do, I love what I do, and I was meant to be here. I’ve set so many more goals and winning some awards this year would mean everything to me. There’s nowhere to go but up.

**2. What style icons inspire you?**

Bella Thorne really inspires me. She can have a clean cut look like myself but then go high fashion and edgy in seconds. Her style is amazing and she shops at my favorite store, Dolls Kill.

**3. What do you think makes a vid really shine?**

I think what really makes a vid shine is it’s quality and realism. I think that genuine emotions are the most attractive to viewers. People want to see what turns you on, what makes you tick, what you do well and what you can come up with as a adult artist that showcases your creativity.

**4. What would you like to accomplish in your career in the next year?**

There are always goals I’m striving for. My main goals are to win an AVN award, get nominated solo, increase the content on my ManyVids profile, get more engagement on my YouTube channel, and increase my payouts so I can build up my community.

**5. How do you think the adult industry needs to change?**

I think it needs to change in so many ways. The one that affects me the most is the fact that girls with different body types or looks don't get the opportunities that "skinny, normal" girls get. I believe beauty can be found in many different forms beyond traditional beauty norms. I hope the industry will give more girls the chance to get the work they deserve.

**6. Do you like dressing up or do you prefer to lounge in comfortable clothes?**

I like comfortability but I also enjoy dressing up. If I had to choose one, it would be a more relaxed style.

**7. What is the sexiest dream you've ever had?**

It was about a Starbucks drive-through. I would have been the barista giving the guy coffee. The guy in the drive-through shows me his cock and I tell him to pull around and come in, then he fucks me in the storage room behind the coffee bar.

#### 8. What do you like to do on your days off?

I like to absorb my everyday life. I like to relax by a fire, drink coffee and listen to music or catch up on a series. I don't go out to party very much because I'm very high energy through the week. If I do go out, I like to go see a band or grab a beer and wings and watch football. The outdoors is something I really appreciate and enjoy. It makes me happy to enjoy the quiet tranquility of the woods or the water. It grounds me.
